

AGENDA ITEM NO: 7.2

**UNIVERSITY COUNCIL
GOVERNANCE COMMITTEE
NOTICE OF MOTION**

PRESENTED BY: Roy Dobson, Chair, Governance Committee

DATE OF MEETING: May 15, 2025

SUBJECT: Changes to the Academic Courses Policy

COUNCIL ACTION: NOTICE OF MOTION

*That Council approve the changes to Academic Courses Policy,
effective September 1, 2025*

PURPOSE:

The Governance Committee is responsible for bringing forward policies and changes to policies under the purview of University Council. To allow input from Council prior to approval, it is our practice to bring changes forward first as a notice of motion. A request for decision on the proposed changes to the Academic Courses Policy will be presented to Council on June 12, 2025

SUMMARY:

The Governance Committee met with the Associate Provost, Teaching Innovation & Strategic Initiatives and a representative from the Registrar's Office regarding proposed changes to the Academic Courses Policy to address emerging practices in assessment.

While work is underway to develop a new Assessment Policy with procedures that will eventually replace the Academic Courses Policy, that work is complex and requires extensive consultation. In the meantime, the current policy does not include principles related to assessment nor does it specifically address digital exams or oral/practical exams.

Changes included in this revision can be found at:

- Section II Assessment of Students – principles related to assessment
- Item 7
 - Role of educator in determining method of final assessment
 - Information related to Digital Exams
 - Information related to Oral/Practical exams

The Governance Committee reviewed these changes at its May 6, 2025 meeting and were supportive of them, recognizing that they will support students and educators. The Academic Programs Committee also reviewed the proposed changes and were supportive.

ATTACHMENT:

- Academic Courses Policy (with changes highlighted)

Academic Courses Policy on Class Delivery, Examinations, and Assessment of Student Learning

Responsibility: University Registrar

Authorization: University Council

Approval Date: May 19, 2011; reapproved June 18, 2015; reapproved June 22, 2017; reapproved June

18, 2020; reapproved June 15, 2023

Revisions

Permit the first day of final examinations to be one day after the last day of lectures ([January 2012](#))

Delete the Withdraw Fail grade effective May 1, 2012 ([March 2012](#))

Revise Course Syllabus section; additional section on Class Recordings ([March 2013](#))

Revise Grading System section; clarification of grading deadlines (May 2017)

Revise Student Assessment Issues and Special Circumstances section; addition of “N-Grades” definition

(May 2017)

Updates

Incorporate terminology used in the University Council policy on [Student Appeals of Evaluation, Grading and Academic Standing](#) and the *Procedures for Student Appeals in Academic Matters* (December 2012)

Incorporate Academic and Curricular Nomenclature terminology on courses and classes (June 2016) **Purpose**

The purpose of the Academic Courses Policy is to prescribe university-level requirements for delivery of academic courses and the assessment of student learning including conduct of examinations.

Principles

One of the primary purposes of a university is to optimize learning opportunities for students. The University of Saskatchewan encourages and celebrates innovation in class delivery and student assessment.

Assessment of student learning should be an effective, fair and transparent process which follows university, college, and department regulations so that students across the institution are treated respectfully and impartially. This includes accommodation for students with disabilities, in accordance with university policies and provincial legislation.

As articulated in the University [Learning Charter](#), students will be provided with a clear indication of what is expected in a course or learning activity, and what is required to be successful in achieving the expected learning outcomes as defined in the course outline. Students must therefore receive prompt and constructive feedback on their learning progress

at regular intervals throughout the course. Educators will ensure that assessments of learning are transparent, applied consistently and are congruent with learning outcomes. Feedback will be designed to both assess and enable student learning. With these goals in mind, educators will solicit and reflect on feedback from students and peers and commit to building knowledge and skill in teaching practice for the purposes of continuous enhancement.

Scope of this Policy

This document incorporates all the policies, regulations, and procedures relating to class delivery and student assessment which have been previously approved by University Council in various policy documents and reports.

It supersedes the following documents previously approved by University Council:

April, 2009 Academic Programs Committee [Examination Regulations](#)

April, 2001 Academic Programs Committee [Policies for Reporting Final Grades](#)

January, 2001 Academic Programs Committee Retroactive Withdrawal Policy

September, 1986 – University of Saskatchewan Grading Policy

It complements and maintains the principles expressed in the following documents:

June, 1999 [Guidelines for Academic Conduct](#)

June, 2007 Teaching and Learning Committee [Student Evaluation of Instructors/Courses](#)

December, 2009 [Use of Materials Protected by Copyright](#)

June, 2010 University [Learning Charter](#)

June 2011 [Nomenclature Report](#)

January, 2012 [Academic Accommodation and Access for Students with Disabilities](#)

Information and Communications Technology [Lecture Capture](#)

All regulations covering class delivery, student assessment, and examinations have been developed into a framework with three levels of authority and responsibility: university, college, and department. Within the framework of this policy, departments and colleges may develop additional regulations and procedures for class delivery and student assessment. For example, colleges and departments may develop their own template for the syllabus to be used by their instructors.

In colleges where there is an alternate approved Academic Calendar, regulations covering student assessment and examinations shall be developed by the college in a manner consistent with these university regulations.

All references to “deans and “department heads” in this document would also equally apply to their delegates. All references to “departments” and “colleges” would also equally apply to schools.

Policy

The *University of Saskatchewan Academic Courses Policy on Class Delivery, Examinations and Assessment of Student Learning* covers policies, regulations, and procedures governs the following aspects of class delivery and student assessment, including the conduct of examinations

Section I. Class Delivery

1 Class Syllabus

1.1 Content of the syllabus

1.2 Changes to the syllabus after distribution

1.3 Change of final examination date

2 Contact Hours and Availability of Instructors

2.1 Availability of instructor

3 Student Attendance

3.1 Permission to attend and participate in classes

3.2 No credit unless registered

4 Class Evaluation by Students

5 Class Recordings

5.1 Privacy, permission, and consent

5.2 Intellectual property and copyright

5.3 Accommodation for students with disabilities

5.4 Definitions

5.5 Responsibilities of instructors and presenters

5.6 Responsibilities of students

5.7 Restrictions on use of classroom recordings

5.8 Storage and archiving

5.9 Special circumstances: clinics, training, art classes

Section II. Assessment of Students

6 Grading System

- 6.1 Fairness in evaluation
- 6.2 Weighting in class grades
- 6.3 Grade descriptors
- 6.4 Academic grading standards
- 6.5 Average calculations
- 6.6 Grading deadlines

7 Examinations

- 7.1 Methods and types of examinations
- 7.2 Mid-term examinations
- 7.3 Final examinations
 - a. Modification of requirement to hold a final examination
 - b. Final examination period and scheduling
- 7.4 Conduct and invigilation of examinations
 - a. Invigilation
 - b. b. 30 minute rule
 - c. Identification
- 7.5 Access to materials in the examination room
- 7.6 Permission to leave the examination room
- 7.7 Food and beverages
- 7.8 Protocols for an academic misconduct breach
- 7.9 Retention and accessibility of examination papers
- 7.10 Retention of the exam materials during the examination
- 7.11 Additional invigilation standards

8 Student Assessment Issues and Special Circumstances

- 8.1 Final grade alternatives and comments
- 8.2 Withdrawal
- 8.3 Retroactive withdrawal
- 8.4 Incomplete class work (assignments and examinations) and Incomplete Fail (INF)
- 8.5 No Credit (N) grade alternative and grade comment
- 8.6 Deferred final examinations
- 8.7 Supplemental final examinations

8.8 Aegrotat standing

8.9 Special accommodations for disability, pregnancy, religious, and other reasons

9 Procedures for Grade Disputes

9.1 Grade dispute between instructor and department head or dean

9.2 Grade dispute between instructor and student

Authority and Responsibility

Under the Bylaws of University Council (Section 3, VIII, 2), all matters respecting the subjects, time, and mode of the examinations and respecting the degrees and distinctions to be conferred by the University of Saskatchewan shall be provided for by University Council regulations.

Academic regulations at all levels shall be publicly accessible to all members of the university community. If a college or department has additional regulations, these must be made available to students through publicly accessible websites. Additionally, it must be communicated to students those additional regulations exist. There should also be provisions at each level of authority for periodic review and amendment of these regulations.

University

University regulations will prevail in the absence of other college or departmental regulations. In the case of a discrepancy between university regulations and college or departmental regulations, university regulations will take precedence. Any college requesting an exception, change, or addition to these regulations is to submit a proposal to the Academic Programs Committee of University Council for approval.

Colleges and Departments

University Council, while retaining the final authority over assessment of student learning, delegates to colleges the responsibility of establishing general policies concerning the methods and types of assessment which may be employed by the departments of that college, and each department should establish any further instructions and policies for its members as necessary.

Instructors and Departments

It is the responsibility of the instructor and department head, or dean in non-departmentalized college to report final grades to the registrar in accordance with the regulations outlined here. Instructors will use prescribed grade descriptors or grade comments if required.

The final grade report, prepared by the instructor, must be submitted to and approved by the department head, or dean in non-departmentalized colleges.

Section I. Class Delivery

Our University [Learning Charter](#) encourages a multitude of educational experiences that contribute to growth in essential learning pursuits and the personal and professional interests of university community members. To accomplish this, educators need to be aware of the range of instructional methods and assessment strategies and select and utilize teaching methods that are effective in helping students achieve the learning outcomes of a course or learning activity. Additionally, teaching practice will support students in different ways of knowing and learning, including independently, experientially, and collaboratively. Regardless of methodology, there are universal elements of class delivery that ensure appropriate learning opportunities are provided to the students at the university.

1. Class Syllabus

Department heads, and deans in non-departmentalized colleges, are accountable for the maintenance of

academic standards and relevancy of programs of their department and college.

The syllabus is a public document that provides details about a particular class for both potential and enrolled students. It is useful for recruiting prospective students and sharing information about university classes with the broader community (for example, for the purposes of transfer credit evaluation). Instructor syllabi must be submitted to department heads, or deans in non-departmentalized colleges, prior to the start of a class.

It is recommended that students also have online access to syllabi prior to the beginning of the class. After submission to the department head, or dean in non-departmentalized colleges, syllabi should be posted through learning management systems and/or publicly accessible departmental or other websites. Instructors who post their syllabus on publicly accessible websites may wish to redact certain information that is not related to the core instruction of the class (e.g. personal contact information, names and contact information for teaching assistants, material protected under copyright, etc.).

1.1 Content of the syllabus

Instructors shall review the contents of the class syllabus with their students at the beginning of the class. The syllabus shall include the following:

- type and schedule of class activities
- if the class is offered online, through distance learning, or off-campus, any additional or different expectations around any class activities and requirements
- expected learning outcomes or objectives for the class
- method of evaluation, specifically final grade mode (e.g., Numeric, Pass/Fail, or Completed Requirements)
- the type and schedule of graded assessments
- notice if any required class activities, including assessments, are scheduled outside of usual class times (with college permission) and how student time conflicts will be accommodated should they arise because of this change

- the structure and expectations of any final assessment. If there is a final examination, specify the length in hours as well as its mode of delivery
- relative weight of all assessments or all outcomes
- consequences related to missed or late assessments
- whether any or all work assigned in a class, or any outcome, is mandatory for passing the class
- whether there are any college-level regulations that specify requirements for passing the class
- attendance and/or participation expectations if applicable, how attendance and/or participation will be monitored and assessed, and the consequences of not meeting expectations. Where possible, marks should be related to the achievement of outcomes, and not solely on attending or participating in any form, regardless of quality.
- whether there are any approved class-specific fees being charged in addition to tuition (such as materials fees, mandatory fees for software and/or applications, mandatory or optional excursions and the fees associated with these activities, etc.).
- experiential learning expectations if applicable, how experiential learning will be monitored and evaluated, the consequences of not meeting experiential learning expectations, and their contribution to the assessment process
- contact information and consultation availability
- course or class website URL, if used
- notice of whether the instructor intends to record lectures and whether students are permitted to record lectures
- explanation of copyright where it relates to class materials prepared and distributed by the instructor
- location of the *Academic Courses Policy* as well as the regulations and guidelines for both academic and non-academic misconduct and appeal procedure
- information regarding support services that are available to students through the Teaching, Learning and Student Experience (TLSE) portfolio, Student Learning Services at the University Library, and colleges

Instructors are encouraged to use the [University of Saskatchewan Syllabus Template and Guide](#) to assist with satisfying the above requirements.

1.2 Changes to the syllabus after distribution

After distribution, a syllabus may only be changed if no student in the class objects to such changes and the department head, or dean in non-departmentalized colleges, is notified. Otherwise, methods, modes, and timing of assessment for all assessments must remain as stated in the syllabus: no major graded assessment is to be newly assigned in a class and no changes to already set dates or the stated grade weighting of graded assessments or outcomes is permitted.

However, it may be deemed necessary to revise a syllabus in ways that impact the methods, modes, and timing of class work (such as competencies, assignments, examinations, weighting of grades, etc.) to address emergency circumstances that may impact academic programming. Such changes will be permitted only if they have been approved by the dean's office of the college of instruction. The reasons for the changes to the syllabus will be communicated to the students affected.

1.3 Change of final examination date

Once the registrar has scheduled final examinations for a term, instructors wanting to change the date and/or time of their final examination must obtain the consent of all students in the class according to procedures established by the registrar, as well as authorization from the department head, or dean in non-departmentalized colleges.

2. Contact Hours and Availability of Instructors

As per [Nomenclature](#), a three credit unit course involves approximately 30-39 direct instructional course hours, and a course can involve a further equivalent contact time in student consultations and/or tutorial or laboratory sessions.

2.1 Availability of instructor

Instructors should make it known to the students through the class syllabus how they can be contacted to arrange for one-on-one consultation about class material. These need not be face-to-face meetings but can include, for instance, responses to queries through email or other electronic media. Instructors should inform students about how quickly they can expect an email response to any enquiry.

3. Student Attendance

Regular and punctual attendance in their classes is expected of all students (including lectures, seminars, laboratories, tutorials, etc.).

Attendance expectations apply equally to classes offered in a physical classroom, online, or through distance learning, though the practical requirements of attendance may be defined differently in each instance.

3.1 Permission to attend and participate in classes

No person may gain the full benefit of instruction in a class without being duly registered in the class either as a credit or audit student. Instructors must advise students who are not on their class list that they need to be registered for their class, either as a credit or audit student.

Instructors may invite visitors to attend a class for pedagogical and other reasons related to the delivery of the class (for example, guest lecturers, professional observers or mentors, teaching or marking assistants, laboratory, or tutorial assistants, and so forth).

Instructors of an online class may, at their discretion, open their class to a broader set of participants (including those not registered as students) provided that non-registered participants are not using software or materials limited by license for use by students. Instructors shall not grade any work of such non-registered participants in these online courses. Retroactive registration or credit challenge by such non-registered participants will not be permitted.

3.2 No credit unless registered

Only students who are registered in a class can receive credit for a class.

4. Class evaluation by students

Improvement of class delivery is an on-going responsibility of all instructors. Student feedback is an important source of information to help guide instructors in their search for improved delivery mechanisms.

At the university, all classes will be evaluated by students on a regular basis using an approved evaluation tool. All instructors have the responsibility to ensure that students have access to such an evaluation tool.

Department heads, or deans in non-departmentalized colleges, shall ensure that a process exists for instructors to receive student evaluations on a regular basis, and for arranging an opportunity for constructive discussion of the evaluation as required. This discussion should centre on the importance of maximizing the educational experience through continual class delivery improvement.

5. Class Recordings

The university is committed to providing accessibility and flexibility for student learning and seeks to foster knowledge creation and innovation. Recording of lectures and other classroom activities can contribute to these goals.

Classes at the university may be recorded for learning or research purposes, subject to the regulations and procedures stated in this policy.

With permission of instructors, presenters, and students, and following the procedures listed below, the university supports and encourages the audio and video recording of lectures and other learning activities for purposes of teaching, learning and research.

5.1 Privacy, permission, and consent

The classroom is a private space accessible only by members of a class, where student and instructor alike can expect to interact in a safe and supportive environment. Recording of lectures or other classroom activities should not infringe on privacy rights of individuals.

5.2 Intellectual property and copyright

Class recordings are normally the intellectual property of the person who has made the presentation in the class. Ordinarily, this person would be the instructor. Copyright provides presenters with the legal right to control the use of their own creations. Class recordings may not be copied, reproduced, redistributed, or edited by anyone without permission of the presenter except as allowed under law.

5.3 Accommodation for students with disabilities

When an accommodation for recording lectures or classroom activities is authorized by Access and Equity Services, an instructor must permit an authorized student to record classroom activity; only the student with the accommodation would have access to this recording.

5.4 Definitions

Definition of “presenter”

For the purposes of this section, a presenter is defined as any individual who by arrangement of the class instructor will provide instruction to students in the class. In addition to the class instructor, presenters might include guest lecturers, students, tutorial leaders, laboratory instructors, clinical supervisors, teacher trainers, and so forth.

Definition of “classroom”

For the purposes of this section, a classroom is defined as any room or virtual location where students are directed to meet as part of class requirements. This includes tutorials, laboratories and web-conferences which are required elements of a class but does not include study groups and other voluntary student activities.

Definition of “learning activities”

For the purposes of this section, a learning activity is any gathering of students and instructors which is

required as part of the class requirements, such as a laboratory, seminar, tutorial, and so forth.

5.5 Responsibilities of instructors and presenters

For purposes of teaching, research or evaluation, instructors may record lectures and other learning

activities in courses with permission from the presenters.

Notification of intent to record classroom sessions should be included in the class syllabus and, where possible, in the catalogue description of the course. If not so noted, permission from students will be obtained prior to making recordings for teaching or research where a student’s image or voice may be recorded.

If such permission is refused by a student, the instructor will arrange for that student’s image or voice not to be included in the recording.

5.6 Responsibilities of students

Student use of personal recording devices of any type during lectures or other classroom learning activities requires consent of the instructor.

A student may record lectures without such permission only if the Access and Equity Services Office has approved this accommodation for the student. The instructor will be notified of this accommodation. Such recordings would not be shared and would be deleted at the conclusion of the class.

5.7 Restrictions on use of classroom recordings

The use of recordings of classroom activities is restricted to use for teaching, learning, and research.

Students may not distribute classroom recordings to anyone outside the class without permission of the instructor.

Instructors may use recordings for purposes of research, teaching evaluation, student evaluation, and other activities related to teaching, learning, and research. With permission of the instructor, presenters may also use recordings for such purposes.

Recordings of classroom sessions may not be used in the formal evaluation of an instructor's teaching.

5.8 Storage, archiving, and permission to use

Permission for any use of a recording of class and other learning activities remains with the instructor after the class term is ended. In a case where the instructor is no longer available to give permission for use of a recording, the department head, or dean in non-departmentalized colleges, can authorize such use only for purposes of teaching, learning, and research.

Students may retain recordings of classes and other learning activities solely for personal review and not for redistribution.

5.9 Special circumstances: clinics, training, art classes

Recordings of learning activities such as clinical or training experiences involving patients and/or professional staff outside of university classrooms will be based on professional standards and on the policies of the clinical institution. In art classes, written permission of models is also required before any video recording by instructors or students takes place.

Section II. Assessment of Students

Assessment is an essential component of the educational process at our university. It not only measures student learning and achievement but also informs instructional practice, supports student development, and contributes to the continuous improvement of academic programs. As indicated in this policy's purpose, assessment of student learning should be an effective, fair and transparent process which follows university, college, and department regulations.

Assessment practices outlined below are designed to ensure students are treated respectfully and impartially, evaluated fairly in alignment with learning outcomes of courses and programs and supported across our diverse student population.

The following assessment principles guide all assessment-related practices at USask:

Effective assessment of students:

- 1) Is aligned with learning outcomes and instructional strategies (assessment of learning).
- 2) Is inclusive and transparent, so students have equitable opportunities to demonstrate their learning.
- 3) Gives students multiple opportunities to learn through practice and feedback, so they have sufficient time and support to reflect and improve (assessment for learning).
- 4) Develops students' ability to learn effectively and prepares students to be self-directed, reflective, and engaged learners (assessment as learning).

- 5) Is designed so students apply disciplinary learning under authentic, or as close to authentic as possible, circumstances.
- 6) Is constructed and sequenced in ways that support positive student mental health and well-being.

Effective assessment is embedded in departments, colleges/schools, and system-wide when it:

- 1) Provides a valid and trustworthy representation of student achievement that students, educators, disciplines, accrediting bodies, and employers can have confidence in.
- 2) Is manageable and sustainable for educators and appropriately facilitated by policy and resourcing.
- 3) Provides useful information for ongoing course and program enhancement.
- 4) Forms an integral part of program design, aligning with what programs of study are aiming to achieve within disciplinary communities.

6. Grading System

6.1 Fairness

Students need to be assured of fairness and transparency in grading. Transparency includes specifying what an assessment is measuring, the relative importance of assessments in demonstrating course outcomes, and the clear criteria for success on individual assessments. Assessments should evaluate concepts, skills and processes that are the main focus of the course outcomes and the instruction.

University

The University of Saskatchewan shall periodically review methods of student assessment and shall include student consultation when doing so.

College

Each college will set out regulations and guidelines governing methods of assessment permitted, final or any other examination requirements, including whether a student may obtain credit for a class even if they have not written or passed the final examination, and any limits on the relative weighting of final examinations or any other term work. Each college should establish adequate procedures for setting these guidelines and assessing applications for exceptions.

Department

Departments and non-departmentalized colleges shall periodically discuss grading patterns and trends and reach a common understanding about what appropriate grades at all levels of their discipline should be. It is the responsibility of the department head, or dean in non-departmentalized colleges, to ensure that grading is fair and transparent.

Appeal

A student who is dissatisfied with the assessment of their work or performance in any aspect of class work, including a mid-term or final examination, shall follow the procedures set out in the University Council policy on [*Student Appeals of Evaluation, Grading and Academic Standing*](#) and the [*Procedures for Student Appeals in Academic Matters*](#).

6.2 Weighting in class grades

Timely feedback is an important part of the educational experience. Assessments will be graded and returned to students with feedback in a timely manner, so that students have a reasonable opportunity to learn and improve based on the feedback before they are assessed again.

Each assignment and examination will be scheduled according to information provided in the class syllabus unless otherwise agreed by the instructor and students.

The relevant weight of assessments in determining the final grades will be specified on the class syllabus. The weighting of individual questions on any examination also needs to be specified as part of the examination.

6.3 Grade descriptors

The university's implementation of the percentage system for reporting final grades was approved by University Council in 1986. University grade descriptors and the percentage system apply unless separate approved college regulations exist. Exceptions to the grade descriptors below require council approval:

Definitions

Percentage assessment for undergraduate courses is based on the literal descriptors, below, to provide

consistency in grading among colleges.

The university-wide relationship between literal descriptors and percentage scores for undergraduate courses is as follows:

90-100 Exceptional

A superior performance with consistent strong evidence of:

- a comprehensive, incisive grasp of the subject matter
- an ability to make insightful critical evaluation of the material given
- an exceptional capacity for original, creative, and/or logical thinking
- an excellent ability to organize, to analyze, to synthesize, to integrate ideas, and to express thoughts fluently.

80-89 Excellent

An excellent performance with strong evidence of:

- a comprehensive grasp of the subject matter
- an ability to make sound critical evaluation of the material given
- a very good capacity for original, creative, and/or logical thinking
- an excellent ability to organize, to analyze, to synthesize, to integrate ideas, and to express thoughts fluently.

70-79 Good

A good performance with evidence of:

- a substantial knowledge of the subject matter
- a good understanding of the relevant issues and a good familiarity with the relevant literature and techniques
- some capacity for original, creative, and/or logical thinking
- a good ability to organize, to analyze, and to examine the subject material in a critical and constructive manner

60-69 Satisfactory

A generally satisfactory and intellectually adequate performance with evidence of:

- an acceptable basic grasp of the subject material
- a fair understanding of the relevant issues
- a general familiarity with the relevant literature and techniques
- an ability to develop solutions to moderately difficult problems related to the subject material
- a moderate ability to examine the material in a critical and analytical manner

50-59 Minimal Pass

A barely acceptable performance with evidence of:

- a familiarity with the subject material
- some evidence that analytical skills have been developed
- some understanding of relevant issues
- some familiarity with the relevant literature and techniques

attempts to solve moderately difficult problems related to the subject material and to examine the material in a critical and analytical manner which are only partially successful.

<50 Failure

An unacceptable performance.

IP Grade: A placeholder grade applied to a class that spans multiple terms. The final grade, which indicates class completion, and full credit units are only awarded in the last term of the class.

College of Dentistry

In January 2017, separate literal descriptors were approved by University Council for the grading of classes in the Doctor of Dental Medicine (D.M.D.) program in the [College of Dentistry](#).

College of Graduate and Postdoctoral Studies

In May 1996, separate literal descriptors were approved by University Council for the grading of classes in the [College of Graduate and Postdoctoral Studies](#).

College of Medicine

In January 2017, separate literal descriptors were approved by University Council for the grading of classes in the Doctor of Medicine (M.D.) program in the [College of Medicine](#).

College of Pharmacy and Nutrition

In January 2023, separate literal descriptors were approved by University Council for the grading of numerically-graded Pharm.D. classes in the [College of Pharmacy and Nutrition](#).

University

The registrar will record and report final grades in all classes according to the grade descriptors outlined above, unless an exception has been approved by University Council. All student grades in all classes must be reported in a timely manner, according to procedures established by the registrar.

College

Each college has the responsibility for ensuring, at the beginning of each class, that students are familiar with the assessment procedures and their application to the literal descriptors. Grade modes must not change once registration in a particular class has begun.

Unless approved by the college, all sections of a given course must adhere to the same system of assessment, either a percentage grading system or a pass-fail assessment system.

Exceptions

University Council will receive and evaluate requests from colleges desiring exceptions to the above grade descriptors.

6.4 Academic grading standards College

College regulations govern grading, promotion, and graduation standards. Students should refer to the appropriate college sections of the [Course and Program Catalogue](#) for specific requirements.

6.5 Average calculations

Each college is responsible for assigning credit values to courses within its academic jurisdiction, in consultation with the registrar, to ensure that consistency is maintained across the program catalogue.

Calculation

To distinguish whether these averages have been computed for the work performed by the student in a session, or in a year, or for their total program, the terms sessional weighted average, annual weighted average, and cumulative weighted average are frequently used.

Sessional weighted averages are calculated from classes taken in Fall Term and Winter Term, annual weighted averages are calculated from all classes taken in a year, and cumulative weighted averages are calculated from all classes taken at the University of Saskatchewan.

Weighted averages are calculated by multiplying the grade achieved in each class by the number of credit units in the class. The sum of the individual calculations is then divided by the total number of credit units to produce the weighted average. Students should consult with their college for policies on repeating classes and non-numeric grade conversion.

Example of calculation of a student average:

<i>Class</i>	<i>Grade</i>	<i>Credit Units</i>	<i>Weighted Marks</i>
ENG 111.3	83	3	249
MATH 110.3	87	3	261
PSY 121.3	97	3	291
POLS 111.3	98	3	294
INDG 107.3	92	3	276
BIOL 120.3	81	3	243
WGST 112.3	93	3	279
CREE 101.3	96	3	288
CHEM 112.3	87	3	261
ASTR 113.3	91	3	273
Total		30	2715

Weighted Average (2715/30) = 90.5%

6.6 Grading deadlines

Final grades should be released to students in a timely way, both for the benefit of the students and to

assist university business processes such as Convocation.

Final grades will be submitted and approved according to procedures established by the registrar. For the purposes of identifying and advising first-year students experiencing academic difficulty, midyear grades in 100-level six credit-unit classes held over the Fall Term and Winter Terms are also reported to the registrar and released to students.

Final grades in all classes are to be submitted and approved:

- no later than the end of the final examination period for standard term classes in a given term with no final examination, and for mid-year examinations in 100-level, two-term classes offered over the Fall Term and Winter Term; or
- within five business days after the date of the final examination (not including weekends or holidays), for those classes with final examinations including final grades resulting from deferred, special deferred, supplemental, and special supplemental final examinations; or
- five business days after the end of the class for open learning classes without a final examination.

If for any reason the above deadlines cannot be met, the instructor should discuss the reason for the delay with their department head, or dean in non-departmentalized colleges. The instructor will also notify both registrar and the students in the class as to the anticipated date of submission.

Colleges which use additional or different grade approval procedures, such as using a board of examiners, should arrange a grading deadline in consultation with the registrar.

The registrar shall notify colleges of any final grades not submitted by the grading deadlines.

Students shall be notified of delays related to grade changes related to any other process involving grades, including those delays related to grade disputes between a student and an instructor or between an instructor and a department head, or dean in non-departmentalized college.

University

Only the registrar may release official final grades. The registrar will post final grades electronically as they are received.

The registrar will communicate with instructors who have not met the above deadlines but who have not notified the registrar.

Department

Final grade submission and approval is a two-stage process, with responsibility shared between the instructor, who submits the final grades, and the department head, or dean in non-departmentalized colleges, who approves the final grades.

If instructors wish to release or post any final grades unofficially, they should do so confidentially. Grades should not be posted with public access.

When final grades are approved by the department head, or dean in non-departmentalized colleges, they will be submitted electronically according to procedures established by the registrar.

Once submitted and approved, final grades may still be changed by the instructor. Grade changes are also approved by the department head, or dean in non-departmentalized colleges.

For off campus and distributed learning classes where the final examinations are submitted to the instructor through the mail, the five business day standard will be waived upon consultation with the registrar.

7. Examinations

There will be alignment between class learning objectives and outcomes, instruction, and the assessment plan for the class, of which examinations may be a significant element.

7.1 Methods and types of examinations

College

University Council, while retaining the final authority over assessment of student achievement, delegates to colleges the responsibility of establishing general policies concerning the methods and types of examinations which may be employed by the college and the departments of that college.

It should be noted, however, that web-based classes must conduct web-based examinations, unless approved by the registrar as an exception.

Department

Each department should establish any further instructions and policies for its members. Each department will establish, within the regulations and guidelines set out by the college, examination methods and the relative weighting of final examinations. These department limitations must be approved by the college.

Educator

The educator can determine the method of final assessment, including individual in-person, digital, or oral/practical examinations, unless the method of assessment is pre-determined by the department or college.

Cross-college and interdisciplinary courses

In courses provided by a department of one college for students in another college, the examination regulations of the teaching department will have precedence unless alternative arrangements have been negotiated between the teaching department, its own college and the other college. In the case of an interdisciplinary program, the appropriate designated authority over the program shall approve any program regulations.

Digital Exams

USask digital exams have specific and unique restrictions and permissions from other forms of exams including but not limited to requirements relating to scheduling, and invigilation.

Digital examinations requirements are as follows:

- USask digital exams are most often available through the Learning Management System, Canvas. Students should use devices that meet current system requirements.
- Online classes with examinations will have online, digital examinations times scheduled and will not be assigned an examination room.
- In rare situations when an in-person exam is required for an online class, the educator must first get permission from their college. Once college approval is granted, the AA dean will contact the Registrar for final approval.
 - Permission must be granted before class starts and the in-person exam must be specified in the syllabus. This process must be completed in each affected term.
 - All information must be submitted to the University Registrar's Office for final approval in order that the exam can be scheduled for a room or to assist with the Special Centre invigilation of the exam, prior to the start of class.
 - All expenses related will be the responsibility of the college.
- In-person and blended classes may have digital exams, and this information will be identified on the exam information sheet. Digital exams for in-person and blended classes may have scheduled examination rooms if requested and when availability permits.
- When the examination is three hours or less, educators must be available for the entire length of the exam to assist with any technical issues and questions. For extended examination times, for example with a take-home digital examination, educators must

communicate with students about how and when the educator or designate will be available to respond to questions and technical issues.

- If a student has reduced time due to technical problems, the student should inform educators of the technical issue immediately. The educator should consider giving an equivalent amount of time to complete the examination.
- Students cannot take, duplicate, or record any digital examination without explicit permission from the educator.
- Lock-down browser tools vetted by the University: Invigilators should not use the automated video camera monitoring features in proctoring software due to the reportedly high error rates. However, digital exams may be invigilated visually using video conferencing tools like Zoom.

7.2 Mid-term examinations and assignments

Scheduling

Mid-term examinations and other required class activities shall not be scheduled outside of regularly scheduled class times, including during the final examination period, except with the approval of the college. For graduate classes, the College of Graduate and Postdoctoral Studies is the approving authority.

Any scheduling of mid-term examinations and other required class activities outside of regularly scheduled class times requires college approval and must be noted in the class syllabus, so that students have fair warning of such scheduling.

Any resultant conflicts with mid-term examinations for other classes, other registered class activities, or any other scheduled university-related business that a student may be involved in will be accommodated at an alternative time. The instructor responsible for the conflict, or this instructor's home college, must facilitate the accommodation, through consultation with the student. Denials of such accommodation may be appealed to the dean's office of the college authorizing the non-standard scheduling, in consultation with the student's college (if in a different college from that of the class) if necessary.

Number of examinations

Students who have more than three mid-term examinations on the same day will be dealt with as special cases by their college. Colleges may establish additional regulations regarding the number of mid-term examinations a student can sit in any given period to time.

7.3 Final examinations

a. Expectations for selecting to have a final examination

Final examinations, like other forms of final assessment, should give the best possible information about a student's level of success in learning the course outcomes or objectives. Colleges determine how and if final examinations will occur and instructors should consult college level procedures and processes when planning final assessments. For example, colleges determine whether students will be permitted to pass a class if they have not written the required final examination. Colleges may allow instructors to determine whether students can pass a class if they have not written a required final examination. In order to be transparent, any requirement

that a student must write and/or pass a final examination to pass the class must be stipulated in the class syllabus.

A class with a final oral/practical examination shall communicate this information to the student through the class syllabus. If an exam will be recorded (e.g. audio, video), it should also be specified in the syllabus. An oral examination does not need to give all students the same questions. Examination questions must test the same course outcomes and be of equal difficulty but may be varied to protect exam security. See 7.9 Retention and accessibility of examination materials and class syllabus for information on maintaining records of final examination materials in the event of an academic appeal.

With the approval of the college and the department, an instructor may change the form of final assessment for a class section from that approved and built in Banner.

b. Final examination period and scheduling of final examinations

Scheduling

The registrar schedules all final examinations. This includes take-home final examinations as well as regular and special deferred final examinations and supplemental examinations. The registrar may delegate authority to schedule final examinations to colleges where classes do not conform to the university's [Academic Calendar](#), or for deferred and supplemental examinations, in such cases where colleges want to schedule and invigilate their own.

Instructors must complete an Exam Information Sheet to indicate scheduling preferences, available on PAWS during the first week of the term, to have a final examination scheduled. The registrar will post the schedules of final examinations as early in a term as possible.

In cases where the exam mode is oral/practical, educators must identify an oral/practical exam when completing the exam information sheet. If the examination of all students can be entirely accommodated within a three-hour exam window, the University Registrar's Office will schedule an exam slot and a room. If the oral/practical exam for all students cannot be accommodated within an assigned three-hour examination slot, the exam scheduling is the educator's responsibility.

Classes identified as having a primary schedule type of LAB (Laboratory) or TUT (Tutorial) will not be scheduled for a final examination even if a final examination is requested.

Change of final examination date

Once the registrar has scheduled final examinations for a term, instructors wanting to change the date and/or time of their final examination must obtain the consent of all students in the class according to procedures established by the registrar, as well as authorization from the department head, or dean in non-departmentalized colleges.

Examination period

For the Fall Term and Winter Term, the final examination period shall commence on the day following the last day of lectures for that term.

Final examinations for evening classes can occur in any night examination slot or anytime on a Saturday. Common final examinations between day and night classes can only be accommodated in a night examination slot or on a Saturday. For Spring Term and Summer

Term, the final examination period shall consist of two to three days immediately following the last day of lectures for a class.

Final examinations must be scheduled during the final examination period for final examinations scheduled by the registrar in that term. In very unusual circumstances, the registrar may schedule a final examination outside the examination period on the recommendation of the instructor and department head, or dean in a non-departmentalized college.

Duration

Writing periods for final examinations usually start at 9 am, 2 pm, and 7 pm. Six credit-unit classes will normally have final examinations of three hours duration. Classes of fewer than six credit units will normally have final examinations of two to three hours.

However, it is recognized that colleges may authorize final examinations of different duration for classes if deemed necessary for pedagogical or other similar justifiable reasons, or if the final examination is conducted online. Such departures from the approved time duration should be done in consultation with the registrar.

Weekends and evenings

Final examinations may be scheduled during the day or evening on any day during the final examination period except Sundays or holidays. No final examinations are scheduled on the Saturday following Good Friday.

Final examinations for day classes can be scheduled in the evening. In the case of common examinations between day classes and evening classes, the final examination will be scheduled either in the evening or on a Saturday.

24-hour rule

The registrar will arrange the schedule so that no student writes more than two final examinations in one 24-hour period.

For example, if a student has final examinations scheduled in three consecutive examination periods - such as on day one at 2 pm and 7 pm, and on day two at 9 am - the registrar will move one of the examinations.

If a student has final examinations scheduled only on two consecutive examination periods, with at least one period between examination groups - such as on day one at 2 pm and 7 pm, and on day two at 2 pm and 7 pm – the registrar will not move any of the examinations.

In the case of oral/practical examinations, students must have sufficient choice of times so that they do not have direct examination conflicts or three examinations in 24 hours. (e.g. a student sign-up sheet with 15-minute blocks to allow the student to determine the best time to participate). See above for more information on what constitutes three examinations in 24 hours. Oral exams scheduled by the University Registrar's Office will not sub-divide the exam slot into timeslots for individual students; this is the responsibility of the educator. However, educators may contact the University Registrar's Office for suggestions regarding the best dates to offer a choice of times.

Conflicts for common examinations

Any student conflicts created by scheduling common final examinations between two or more classes will be accommodated by the instructors of those classes.

Warning about other commitments

Final examinations may be scheduled at any time during examination periods; until the schedule has been finalized and posted, students and instructors should avoid making travel or other professional or personal commitments for this period.

Warning about withdrawal

Students cannot withdraw from a class after the withdrawal deadline for that class.

7.4 Conduct and invigilation of examinations

All regulations for the invigilation of final examinations can apply to the invigilation of mid-term examinations. It is expected that invigilators will be present while students are sitting for examinations, readily available to answer questions from students, and will monitor and report any instances of academic or non-academic misconduct according to the [Regulations on Student Academic Misconduct](#) and the [Standard of Student Conduct in Non-Academic Matters](#). Invigilators shall familiarize themselves with all related regulations and policies.

Invigilation

Normally, the class instructor of record is expected to invigilate their examinations. If the instructor is not available, in so much that it is possible it is the responsibility of the instructor and the department head, or dean in non-departmentalized colleges, to ensure the examination is invigilated by a qualified replacement that is familiar with the subject of the examination. The process by which backup or additional invigilation is provided should be established by the department head or dean.

It is recommended that a department, or non-departmentalized college, supply enough invigilators as is appropriate for the size of the class, depending on the nature of the examination.

Invigilators may use a seating plan for their examinations which requires students to sit at a particular desk or table. In addition, invigilators may move any student to another desk or table in the examination room at any time before or during an examination.

Proctors provided by the registrar in gymnasiums, for deferred and supplemental examinations, for examinations accommodated by Access and Equity Services, for religious accommodation, or by any other academic or administrative unit for any similar examination invigilation situation exercise the same authority to enforce these regulations as the instructor of the class. However, in such invigilation circumstances, proctors cannot be expected to provide answers to questions specific to the examination in the same manner as the class instructor.

30-minute rule

Students should not be allowed to leave the examination room until 30 minutes after the start of the examination. The invigilator may also deny entrance to a student if they arrive later than 30 minutes after the start of the examination. A student denied admission to the examination under this regulation may apply to their college for a deferred final examination; such application will be subject to consideration under the usual criteria for that college.

Except for use of the washroom, invigilators can, at their discretion, deny students leave of the examination room for a period prior to the end of the examination. Students who are finished during this time should remain seated at their desk or table until the invigilator informs the class that the examination is over, and they can leave.

Identification

Students sitting for examinations are required to confirm their identities by providing their student identification (ID) numbers and names on their examination papers, and by presenting their university-issued student ID cards during the examination and upon signing the tally sheet when leaving the examination, or both.

During the examination, invigilators can require students to place their student ID card on the desk or table where the student is writing the examination, in plain view for invigilators to check. Invigilators may ask for additional government-issued photographic ID if the student does not have a student ID card or if they deem the student ID card insufficient to confirm a student's identity.

Students who do not present a student ID card, or other acceptable photographic identification, during an examination will be permitted to finish sitting the examination, but only upon completing and signing a *Failure to Produce Proper Identification at an Examination* form. The form indicates that there is no guarantee that the examination paper will be graded if any discrepancies in identification are discovered upon investigation. Students will then have to present themselves with a student ID card or other acceptable government-issued photographic identification to the invigilator within two working days of the examination at a time and place mutually agreeable to the invigilator and the student. Such students may also be asked to provide a sample of their handwriting. Failure to provide acceptable identification within two working days will result in an academic misconduct charge under the [Regulations on Student Academic Misconduct](#).

If a student refuses to produce a student ID, or other acceptable photographic identification, and refuses to complete and sign the *Failure to Produce Proper Identification at an Examination* form, the invigilator will permit them to continue writing. However, the student shall be informed that charges will be laid under the [Regulations on Student Academic Misconduct](#) and that there is no guarantee that the examination paper will be graded if any discrepancies in identification are discovered upon investigation.

Invigilators need not require identification if the student's identity can be vouched for by the instructor.

To assist with identification, students wearing caps, hats, or similar head-coverings of a non-religious or cultural nature can be asked to remove them.

Invigilators are permitted to take a photograph of any student if there is any question about the student's identity. Invigilators should take a photo in such a manner as to not cause a disruption in the examination room and respects the religious/cultural beliefs of the student. The registrar will arrange for any photographs taken by invigilators to be compared to student ID photos of record. Photographs will only be used for the purposes of verifying the identity of the student and will not be used or disclosed for any other purposes and will be retained in a secure manner for a limited period of time.

Invigilators are also permitted to take the student ID card of any student whose identity is in question.

7.5 Access to materials in the examination room

Students should bring only essential items into an examination room. Personal belongings such as book bags, handbags, purses, laptop cases, and the like may be left, closed, on the floor beneath a student's chair or table or in an area designated by the invigilator; coats, jackets, and the like may be placed similarly or on the back of a student's chair. Students should not access any such personal belongings except with the permission of and under the supervision of the invigilator. Students should not collect their personal belongings until after they have handed in their examination. The university assumes no responsibility for personal possessions lost in an examination room.

Students shall follow the rules of the examination as defined by the instructor, including what resources and materials are permitted during an examination and what can be taken with them when they leave the room.

Students shall have no unauthorized communication of any kind with anyone other than the invigilator while the examination is in progress. This includes not leaving their examination paper exposed to view by any other student.

7.6 Permission to leave the examination room

Students who need to leave the examination room for any reason require the permission of the invigilator. Invigilators may use a sign-out/sign-in sheet for students who are given permission to leave the examination room and may record the amount of time a student spends outside of the examination room, frequency of requests to leave, etc. Students must leave their examination paper, examination booklets, and any other examination or personal materials either in the custody of the invigilator for retrieval upon their return, or at the desk or table they were writing at, as per the invigilator.

Normally, only one student should be permitted to leave the room at one time. This prevents a student from discussing the examination with other students and enables invigilators to be aware of the whereabouts of their students.

Invigilators may choose to escort students to and from washrooms at their discretion and can check washrooms for indications of academic misconduct (e.g., hidden notes or materials, books, or other papers, etc.). Invigilators may designate a nearby washroom for use by the students during the examination. However, invigilators may not deny students access to washrooms.

Students who have completed their examination are not permitted to leave the examination room until they have signed out and provided their student ID number on a university tally sheet confirming their attendance at the examination and their submission of the examination paper, examination booklets, and any other examination materials.

Emergency evacuation of an examination

If the examination is interrupted by fire alarm, power outage, or similar emergency requiring evacuation, the invigilator should lead the students out of the examination room in an orderly fashion and keep the students together as much as is possible. The invigilator should, to the extent that this is possible, advise the students not to communicate with each other about the

examination and supervise the students until the resumption of the examination. If the situation requires cancellation of the examination, it will be rescheduled by the registrar at the earliest practical date and time.

7.7 Food and beverages

It is at the discretion of the invigilator whether food or beverages are permitted in an examination room,

unless required for a medical purpose.

7.8 Protocols for an academic misconduct breach

Where there are reasonable grounds for an invigilator believing that a violation of the [Regulations on](#)

[Student Academic Misconduct](#) has occurred, the invigilator has the authority to:

- remove anything on the desk or table not authorized for use in the examination.
- ask to examine any book bags or handbags, purses, laptop cases, dictionaries (print or electronic), instruments, calculators, electronic devices capable of data storage and retrieval or photography (computers, tablets, cell phones, personal music devices, etc.), and any other personal belongings if there is a reasonable suspicion that they contain evidence of academic misconduct. If allowed by the student, any such searches must be done in the presence of the student; the presence of another invigilator as a witness is recommended but not necessary.
- once examined, any personal belongings (e.g., cell phones, textbooks, and book bags) shall be returned to the student to be put back under the student's desk, with, in so much as it is possible, the evidence retained by the invigilator. Notes or similar unauthorized materials will be confiscated and attached to the incident report to be evaluated by the instructor for possible academic misconduct procedures. If the student requires a photocopy of any evidence discovered, a copy will be provided as soon as is reasonably possible with the original to be retained by the invigilator.
- the invigilator may take photographs or video recordings of any evidence. Photographs or video recordings will only be used in support of a charge under the [Regulations on Student Academic Misconduct](#) and will not be used or disclosed for any other purposes, and will be retained in a secure manner for a limited period of time period.
- require the student to move to a seat where the invigilator can more easily monitor the student.
- ask a student to produce evidence where the invigilator believes that student has hidden it on their person. If the student refuses, respect the refusal but note it when reporting. Under no circumstances can the student be touched or physically searched.
- if considered reasonably necessary, invigilators may take a photograph of the student.

if the student refuses to cooperate with any request of the invigilator, note the refusal when reporting.

In all the above cases, the student is allowed to finish sitting the examination. Any interaction with the student should be as discrete and quiet as is possible, so as to avoid disruption to the examination room; if practical, any conversation with the student should take place outside of the examination room. If the student is disruptive, the invigilator can require them to leave the examination room.

As soon as possible, either during or following the conclusion of the examination, the invigilator is expected to:

- make a note of the time and details of the violation, the student's behaviour, and, if a student's identity is in question, their appearance (age, height, weight, hair, and eye colour, eyeglasses, identifying features, etc.)
- explain to the student that the status of their examination is in question, that the incident will be reported, and that possible charges under the [*Student Academic Misconduct Regulations*](#) could be forthcoming
- identify the student's examination paper, examination booklets, and any other examination materials and set them aside
- inform the instructor (if the invigilator is not the same) of the circumstances and turn over all the evidence available. If that the instructor is not available, the invigilator will inform the appropriate dean.

7.9 Retention and accessibility of examination materials and class syllabus

All marked final examination papers, together with the university tally sheets, shall be retained in the department, or college in non-departmentalized colleges, for a period of at least one year following the examination period in which the final examination was held in case of student appeals under university policy.

It is recommended that examples of all final examination questions for a class, along with the class syllabus, shall be retained in the department, or college in non-departmentalized colleges, for a period of at least ten years following the end of the class. Retention supports the evaluation of transfer credit for students.

With regards to oral/practical examinations, examinations may be recorded by the examiner, but not the student. A student should know if a recording is being made. If an exam is recorded, the copy of the recording must be maintained for one year and must then be destroyed/erased beyond recovery. Educators should retain a record of exam questions or prompts for use in challenge procedures.

For details regarding accessibility of examination papers please refer to the policy on [*Student Appeals of Evaluation, Grading and Academic Standing*](#) and the [*Procedures for Student Appeals in Academic Matters*](#).

7.10 Retention of examination materials during the examination

Students are not permitted to leave the examination room with the examination paper, examination booklets, or any other examination materials unless permitted to do so by the

invigilator. It is also the responsibility of an invigilator to ensure that no such examination materials are left unattended in an examination room before, during or after an examination.

7.11 Additional invigilation standards

It is recognized that departments and colleges may want additional invigilation standards for their instructors or may require them to meet professional or accreditation standards, and that invigilation may be provided differently for online, distributed learning, or off-campus classes. University Council therefore delegates to each college and department the responsibility and authority for setting additional standards for invigilation appropriate to their college or department and in compliance with university policy and federal and provincial legislation

8. Student Assessment Issues and Special Circumstances

8.1 Final grade alternatives and comments

Definition:

Course Grade Modes

- Pass/Fail/In Progress (P/F/IP)
- Percentage/Numeric/In Progress (0-100/IP)
- Completed Requirements/In Progress/Not Completed Requirements (CR/IP/F)

The following final grading alternatives within certain grade modes also exist:

- Audit (AU)
- No Credit (N)
- Not Applicable (NA)
- Withdrawal (W)
- Withdrawal from Audit (WAU)
- Aegrotat Standing (AEG)
- In Progress (IP)
- No Grade Reported (NGR)

Final grades recorded as percentage units may be accompanied by the following additional grade comments as warranted:

- Incomplete Failure (INF)
- Deferred Final Examination Granted (DEFG)
- Special Deferred Final Examination Granted (SPECDEFG)
- Supplemental Final Examination Granted (SUPPG)
- Supplemental Final Examination Written (SUPP)
- Special Supplemental Final Examination Granted (SPECSPG)
- Special Supplemental Final Examination Written (SPECSUP)

8.2 Withdrawal

If a student withdraws from the class after the add-drop deadline but before the withdrawal deadline for

that class, the class remains on their transcript and is shown as a withdrawal.

Withdrawal is a grading status alternative which appears permanently on a student's transcript as a W.

Withdrawal has no academic standing and does not impact the calculation of a student's average. If a student withdraws from a class before the add-drop deadline for a term, the listing of the class is deleted from their transcript.

8.3 Retroactive withdrawal

A retroactive withdrawal from a class can be granted by the college when a student has received a failing grade in a class due to serious personal circumstances. It does not matter whether the student completed class work, including the final examination, for the class in such situations. As well, a retroactive withdrawal can be granted in situations where the student, or the university, has made a verifiable error in registration.

A retroactive withdrawal from a class can be placed on an academic record by the registrar, provided the student has applied for this change to the college in which they are registered, and the college approves this appeal. Changing a failing mark to a withdrawal removes these failures from the student's average.

Such a change in an academic record can be justified only on serious personal circumstances (normally medical or compassionate grounds, such as a mental or physical illness or condition, the death of someone close, or similar reasons beyond the student's control which contributed to the failure in the class) rather than academic grounds.

Other procedures already exist for academic appeals, as described in the University Council policy on [*Student Appeals of Evaluation, Grading and Academic Standing*](#) and the [*Procedures for Student Appeals in Academic Matters*](#).

8.4 Incomplete class work (assignments and/or examinations) and Incomplete Failure

(INF) When a student has not completed the required class work, which includes any assignment or examination including the final examination, by the time of submission of the final grades, they may be granted an extension to permit completion of an assignment or granted a deferred examination in the case of absence from a final examination.

Extensions past the final examination date for the completion of assignments must be approved by the department head, or dean in non-departmentalized colleges, and may exceed thirty days only in unusual circumstances. The student must apply to the instructor for such an extension and furnish satisfactory reasons for the deficiency. Deferred final examinations are granted as per college policy.

In the interim, the instructor will submit a computed percentage grade for the class which factors in the incomplete class work as a zero, along with a grade comment of INF (Incomplete Failure) if a failing grade. The INF grade comment can only be used with a failing grade.

In the case where the student has a passing percentage grade, but the instructor has indicated in the class syllabus that incomplete required class work will result in failure in the class, a final grade of 49% will be submitted along with a grade comment of INF (Incomplete Failure).

If an extension is granted and the required assignment is submitted within the allotted time, or if a deferred examination is granted and written in the case of absence from the final examination, the instructor will submit a revised assigned final percentage grade. The grade change will replace the previous grade and any grade comment of INF (Incomplete Failure) will be removed.

A student can pass a class based on work completed in the class provided that any incomplete class work has not been deemed mandatory by the instructor in the class syllabus as per college regulations for achieving a passing grade.

College of Graduate and Postdoctoral Studies

The College of Graduate and Postdoctoral Studies, which has higher passing grade thresholds for its programs than do undergraduate courses, will designate a final failing grade of 59 % to be assigned along with a grade comment of INF (Incomplete Failure) if the student could otherwise pass the class.

8.5 No credit (N) grade alternative and grade comment

The No Credit (N) or “N-Grade” can be listed on a student’s transcript as a grade. The N grade (No Credit) is listed next to the percentage grade to show that a student has a passing grade but has not earned credit. These must be distinguished from failing grades in that a student will not have failed the class for which the N-Grade has been issued. For example, a college may issue a grade of N when a student has not mastered an “essential component” in a class. If an essential component is failed, but the final grade results in a passing mark, a grade of N (No Credit) will be added to the percentage grade on the transcript (e.g., 72N). Essential components must always be identified as such on course syllabi. College promotion standards determine whether a student must successfully repeat the course.

8.6 Deferred final examinations

A deferred or special deferred final examination may be granted to a student.

Examination period

The deferred and supplemental examination periods are approximately as follows:

- Fall Term classes, the four business days of the February midterm break
- Fall and Winter two-term classes and Winter Term classes, the five business days following the second Thursday in June
- Spring Term and Summer Term classes, the first or second Saturday following the start of classes in September

The registrar may delegate authority to schedule final examinations to colleges where classes do not conform to the university's [*Academic Calendar*](#), or in such cases where colleges want to schedule and invigilate their own deferred, special deferred, and supplemental examinations.

Students granted a deferred, special deferred, or supplemental examination will be assessed the approved fee for such an examination.

College

The college must consider all requests for deferred examinations and notify the student, the instructor, and, in the case of approval, the registrar of its decision within ten business days of the close of the final examination period, and within ten business days of receipt of the application for special deferred examinations. The college, in consultation with the student and the instructor, is responsible for arrangements for special deferred examinations.

A student who has sat for and handed in a final examination for marking and signed the tally sheet will not be granted a deferred examination but may apply for a retroactive withdrawal or a supplemental examination, subject to individual college policy and procedures.

Barring exceptional circumstances, deferred examinations may be granted provided the following conditions are met:

- a student who is absent from a final examination for valid reasons such as medical or compassionate reasons may apply to their college for a deferred examination.
- a student who becomes ill during a final examination or who cannot complete the final examination for other valid reasons must notify the invigilator immediately of their inability to finish. The student may then apply for a deferred examination.
- a special deferred examination may be granted to a student who, for valid reasons such as medical or compassionate reasons is unable to write during the deferred examination period. An additional fee is charged for special deferred examinations; otherwise, they are subject to the same regulations as deferred examinations.
- a student must submit their application for a regular or special deferred examination, along with satisfactory supporting documentary evidence, to their college within three business days of the missed or interrupted final examination.

Instructors must provide deferred examinations to the registrar at least five business days prior to the start of the deferred examination period. Failure to do so may result in the instructor, department or college being responsible for invigilating the exam.

Once the examination is written, the instructor will assign a revised final percentage grade. The grade comment of DEFG (Deferred Final Examination Granted) or SPECDEFG (Special Deferred Final Examination Granted) will be removed from a student's official record. If the examination is not written, the original grade/grade comment submitted by the instructor will stand.

A deferred or special deferred examination shall be accorded the same weight as the regular final examination in the computation of the student's final grade.

Exceptions

With the approval of the department head, or dean in non-departmentalized colleges, and the consent of the student, the instructor of a class is allowed some flexibility about the nature of the examination to accommodate the particular circumstances which created the need for the

deferred examination. The registrar must be notified of any departures from the regular form of examination.

The registrar may arrange for deferred and special deferred examinations to be written at centres other than Saskatoon.

Appeal

In the case of a disputed final grade, a student is entitled to an Informal Consultation on a deferred or special deferred examination. A Formal Reassessment (re-read) will be granted upon receipt of the appropriate application. For more information about Informal Consultation or Formal Reassessments including deadlines, please see the University Council policy on [*Student Appeals of Evaluation, Grading and Academic Standing*](#) and the [*Procedures for Student Appeals in Academic Matters*](#).

8.7 Supplemental final examinations

A student who is assigned a failing grade in a class as a penalty for an academic offence is not eligible to

be granted a supplemental examination in that class.

Examination period

The supplemental examination periods coincide with the deferred examination periods.
Supplemental

examinations resulting from deferred examinations will be specially accommodated.

College

Supplemental final examinations may be granted only according to the following conditions:

- in consultation with the department concerned, a college may grant a supplemental or special supplemental examination to a student registered in the college. Within the limits defined in this section, the college shall determine the grounds for granting supplemental and special supplemental examinations and the criteria for eligibility. This applies to all students regardless of year.
- factors to be taken into consideration for granting a supplemental or special supplemental examination include but are not limited to the subsequent availability of the course or an appropriate substitute, the grades obtained by the student in term work, the weighting of the final examination in determining the final grade, or the class schedule of the student in the subsequent session.
- supplemental final examinations may be granted under regulations established at the college level except that any student who is otherwise eligible to graduate and who fails one class in their graduating year shall be granted a supplemental examination, provided that a final examination was held in that class. A student who fails more than one class in the graduating year may be considered for supplemental examinations according to the regulations established by the student's college.
- the student must make formal application for a supplemental examination to their college by the stated deadline of the college.

- a special supplemental examination may be granted to a student who, for medical, compassionate or other valid reason, is unable to write during the supplemental examination period. An additional fee is charged for special supplemental examinations; otherwise, they are subject to the same regulations as supplemental examinations.

Once the examination is written, the instructor will assign a revised final percentage grade. The grade comment of SUPPG (Supplemental Final Examination Granted) or SPECSPG (Special Supplemental Final Examination Granted) will be replaced with a grade comment of SUPP (Supplemental Final Examination Written) or SPECSUP (Special Supplemental Final Examination Written) on a student's official record. If the supplemental examination is not written, the original grade submitted by the instructor will stand.

Supplemental examinations shall be accorded the same weight as the original final examination in the computation of the student's final grade. However, college regulations may affect how grades based on supplemental examinations are calculated.

Instructors must provide supplemental examinations to the registrar at least five business days prior to the start of the supplemental examination period.

Exceptions

The registrar may arrange for supplemental and special supplemental examinations to be written at

centres other than Saskatoon.

Appeal

A student is entitled to an Informal Consultation on a supplemental or special supplemental examination. A Formal Reassessment (re-read) will be granted upon receipt of the appropriate application. For more information about Informal Consultations and Formal Reassessments including deadlines, please see University Council policy on [Student Appeals of Evaluation, Grading and Academic Standing](#) and the [Procedures for Student Appeals in Academic Matters](#).

8.8 Aegrotat standing (AEG)

In exceptional circumstances, in consultation with the registrar, a student may be offered Aegrotat Standing (AEG) in lieu of writing the deferred or special deferred final examination, or in lieu of a final grade.

Aegrotat standing can be considered provided the student has obtained a grade of at least 65 percent in term work in the class(es) in question (where such assessment is possible); or, if there is no means of assessing term work, the student's overall academic performance has otherwise been satisfactory; the instructor of the class, along with the department head, or dean in a non-departmentalized college, recommends offering Aegrotat standing, and the student's college approves the award.

8.9 Special accommodation for disability, pregnancy, religious, and other reasons

a. Students registered with Access and Equity Services may be granted special accommodation with regard to attendance, availability of study materials, and assessment

requirements (including mid-term and final examinations) as per the [Academic Accommodation and Access for Students with Disabilities policy](#).

Students must arrange such special accommodations according to stated procedures and deadlines established by Access and Equity Services. Instructors must provide mid-term and final examinations for students who are being specially accommodated according to the processes and deadlines established by Access and Equity Services.

b. Students may also request special accommodation about attendance, availability of study materials, and assessment requirements (including mid-term and final examinations) for reasons related to pregnancy.

The University of Saskatchewan has a general duty to provide special accommodation related to the academic obligations of a class to students who are pregnant, and students whose spouses or partners may be pregnant. Students who are experiencing medical issues resulting from pregnancy may be able to arrange accommodation through Access and Equity Services. Students can also arrange such special accommodations in consultation with their instructor and can be asked to provide medical or other supporting documentation (for example, regarding prenatal or postnatal medical appointments, date of delivery, or confirmation of birth). Denials of special accommodation by an instructor may be appealed to the dean's office of the college of instruction.

c. Students may also request special accommodation about attendance, availability of study materials, and assessment requirements (including of mid-term and final examinations) for religious reasons.

Students must arrange such special accommodations according to stated procedures and deadlines established by the registrar. Instructors must provide mid-term and final examinations for students who are being specially accommodated for religious reasons according to the processes and deadlines established by the registrar.

d. Students who are reservists in the Canadian Armed Forces and are required to attend training courses or military exercises, or deploy for full-time service either domestically or internationally, may be granted special accommodation about attendance, availability of study materials, and assessment requirements (including mid-term and final examinations).

Student must arrange such special accommodations in consultation with their instructor. A signed [Student Permission to Travel for University Business](#) form shall be presented in support of any request for special accommodation. Denials of special accommodation may be appealed to the dean's office of the instructor's college.

e. Students shall be granted special accommodation due to participation in activities deemed to be official university business. Such activities are considered an important part of student development and include participation in Huskie Athletics, university fine or performing arts groups, participation at academic conferences, workshops or seminars related to the student's academic work, or like activities. Travel time to and from such activities is also considered official university business.

If such activities create a conflict with class work students shall be granted special accommodation about attendance, availability of study materials, and assessment requirements (including mid-term and final examinations).

Student must arrange such special accommodations in consultation with their instructor. A signed [Student Permission to Travel for University Business](#) form shall be presented in support of any request for special accommodation. Denials of special accommodation may be appealed to the dean's office of the instructor's college.

8.10 No Grade Reported (NGR)

If a final grade is not reported by the instructor for past terms, the registrar may assign a placeholder notification of No Grade Reported (NGR) in lieu of a grade. NGR can be listed on a transcript to signify that the class status has changed from 'In Progress' to 'Completed,' but with no grade reported. This placeholder assigns no credit unit weight, final grade status, or average calculator, but is simply a stand-in used by the registrar until a final grade has been submitted and approved. Only the registrar may assign a placeholder notification of No Grade Reported (NGR).

9. Procedures for Grade Disputes

9.1 Grade dispute between instructor and department head or dean

In the absence of any other approved mechanism to resolve grade disputes between an instructor and

department head, or dean in a non-departmentalized college, the following steps, to be completed in a maximum of twelve business days, shall be followed.

- a. Members of each department or college shall agree ahead of time on a conciliation mechanism that the department or non-departmentalized college will follow in the event of a grade dispute.
- b. If five business days following the last day of examinations pass and the department head or dean has not approved the grade report for a class due to a dispute with the instructor, the department or non-departmentalized college shall immediately commence the conciliation procedure. The department or college has five business days to complete this conciliation process.
- c. If, after five business days the conciliation procedure does not resolve the dispute, the matter shall be immediately referred to the dean, or the provost and vice president (academic) in the case of non-departmentalized colleges, who will set up an arbitration committee within two business days. The committee shall consist of three members: one member nominated by the instructor, one member nominated by the department head, or dean in non-departmentalized colleges, and a chairperson. If one of the parties does not nominate a member, the dean or provost and vice-president (academic) shall do so. All appointees to the arbitration committee should be members of the General Academic Assembly. The chairperson shall be appointed by the mutual agreement of the nominees for the instructor and the department head or, if the two nominees cannot agree, by the dean. In non-departmentalized colleges, the chair will be appointed by the provost and vice-president (academic) if the dean and the instructor cannot agree.

d. Also within two business days of the failure of the conciliation process, the department head, or dean in a non-departmentalized college, must list in writing what material was considered in conciliation. A copy of this list shall be sent to the instructor who must immediately report in writing to the dean, or provost and vice-president (academic) for non-departmentalized colleges, as to the accuracy of the list. Within the same two business days, the department head, or dean in non-departmentalized colleges, and the instructor shall forward written submissions with supporting documents to the dean, or provost and vice-president (academic) in non-departmentalized colleges.

e. Written submissions and all supporting documentation considered in the conciliation (including the list drawn up by the department head, or dean in non-departmentalized colleges), and the response of the instructor, are to be forwarded to the arbitration committee. The committee shall consider only written submissions and all supporting documentation forwarded during their deliberations. To the extent possible, the arbitration committee will use the same relative weighting of final examination and class work as was used by the instructor in arriving at the final grades.

The arbitration committee shall be given a maximum of three business days to complete its deliberations and reach a final decision about the disputed marks. The committee can either uphold the disputed marks or assign new marks. Once the committee reaches a final decision a written report which explicitly outlines the rationale for the decision shall immediately be submitted to the registrar, with copies to the dean, department head (if applicable), and instructor. Any grade changes required by the decision shall be submitted by the instructor and approved by the department head, or dean in a non-departmentalized college.

f. If after three business days the arbitration committee has not submitted a final decision about the disputed marks, the dean or provost and vice-president (academic) will be notified as to the reasons for the impasse and the arbitration committee will have two business days to resolve their differences and come to a final decision.

g. If, after two additional business days, an arbitration committee cannot come to a final decision, the dean, or the provost and vice president (academic) in the case of non-departmentalized colleges, will reach a final decision about the disputed marks based upon the written submissions and supporting documents. The dean, or the provost and vice-president (academic) shall immediately submit a written report which explicitly outlines the rationale for the decision to the registrar, with copies to the dean, department head (if applicable) and instructor. Any grade changes required by the decision shall be submitted by the instructor and approved by the department head, or dean in a non-departmentalized college

h. Once this process is completed, affected students who previously ordered a transcript can contact the registrar whereupon corrected transcripts will be issued free of charge.

9.2 Grade dispute between instructor and student

Students who are dissatisfied with the assessment of their class work or performance in any aspect of class work, including a midterm or final examination, should consult the University Council policy titled [*Student Appeals or Evaluation, Grading and Academic Standing*](#) and the [*Procedures for Student Appeals in Academic Matters*](#).

The policies describe the process to be followed in appealing the assessment. Appeals based on academic judgment follow a step-by-step process including consultation with the instructor and rereading of written work or re-assessment of non-written work.
